

Journal of Undergraduate Sciences Author Agreement

The *Journal of Undergraduate Sciences* is a collaborative effort between high school students, undergraduates, professors, and graduate students dedicated to the improvement of undergraduate education in the sciences through the advancement of undergraduate research. It serves as a forum in which students can participate in the frontiers of science and become acquainted with the important issues of the day. Additionally, JUS encourages undergraduates to gain valuable experience by communicating their research to an audience of peers. Through its activities, JUS seeks to vitalize interest in science and its many implications for society.

The purpose of JUS is to educate and inspire science undergraduates and high school students, not to compete with other journals in publishing the latest scientific discoveries. After publication of a paper, the author(s) retains the right to present any part of the research in the paper in any form in other publications or proceedings. The *Journal of Undergraduate Sciences* reserves the right to reproduce and reprint published articles for instructional and promotional purposes. Please be aware that many scientific journals do require exclusive rights to research they publish. If you plan to publish research submitted to JUS in another journal at a later date, it is important that you are aware of the other journal's policy on exclusivity rights ahead of time.

For Students:

By signing this agreement the author(s) agrees to the terms specified above and vouches for the authenticity of all original data presented in the submitted paper. (Please include all authors' signatures.)

Name (author #1) _____ Signature _____ Date _____

Name (author #2) _____ Signature _____ Date _____

For Mentors/Principal Investigators:

By signing this agreement, you certify that you have supervised the above named student(s) in conducting original research, and that, to the best of your knowledge, the student(s) have followed the accepted standards of scientific and academic honesty and ethics. By signing, you also indicate that you have read the student(s) submission and authorize its publication in the *Journal of Undergraduate Sciences*.
